Indore, Madhya Pradesh

Summary

I have a keen interest and good understanding of various software technologies used in Apple hardware platforms such as **iOS**, running on iPhone/iPad and **macOS** running on Macs, along with **watchOS** and **tvOS**. I have experience with entire cycle of developing native apps for iOS. I am a registered Apple Developer and can assist in developing and deploying various solutions on Apple platform.

I am always willing to explore and learn best possible technology for the job at hand. I am inclined towards growing as a software professional by enhancing my understanding of fundamental concepts and tools.

I have around **8 years** of experience working in Software industry, taking up roles like Software Engineer, Technical Lead, Assistant Project Manager. I have also worked as an independent consultant. I like mentoring and training others and help a team grow and deliver quality output.

Professional Skills

Languages :	ANSI-C, Objective-C, Swift, Python, JavaScript
Frameworks :	Cocoa Touch, Foundation, UIKit
Toolchain :	Xcode, Homebrew, Bash
Source Control :	Subversion, Git, GitHub
Operating System:	macOS Tiger - macOS Mojave, Ubuntu

Academic Background

Master of Computer Applications (2008 - 2011)
National Institute of Technology Karnataka, Surathkal (NITK)

Bachelor of Computer Applications (2005 - 2008)
Makhanlal Chaturvedi National University, Bhopal (MCNUJC)

Miscellaneous

Helped with conducting bootcamp training sessions for fresh engineering graduates on getting started with iOS app development and mobile app design.

Worked on a few freelance projects where I have helped clients with UI design, new technology adoption, coding and deployment and app internationalisation.

I am an active contributor on Ask Different, a Stack Overflow sister website, where I answer questions related to Apple hardware, software and technologies.
